PREREQUISITES

There are no prerequisites for the AI for Managers & Leaders class.

ARE YOU READY TO EMPOWER AND LEAD YOUR TEAMS THROUGH THE USE OF ARTIFICIAL INTELLIGENCE (AI)?

Artificial Intelligence is reshaping the business landscape, and leaders must be prepared to harness its potential. Our AI for Managers and Leaders course is designed to equip you with the knowledge and skills needed to effectively integrate AI into your teams and organization, drive innovation, and navigate the challenges of this rapidly evolving technology. Through interactive exercises, case studies, and real-world scenarios, you'll learn how to strategically implement AI, lead technological change, and optimize team performance and decision making with actionable insights you can apply immediately to drive your organization forward.

LEARNING OUTCOMES

During this course, you will learn about:

- The capabilities and limitations of current AI technologies and their applications in business
- Strategies for effective implementation of AI tools to optimize workflows and increase productivity
- Techniques for driving and managing technological change, overcoming resistance, and fostering an AI-adaptive culture
- The impact of AI on team dynamics, roles, and responsibilities
- Ethical considerations and governance strategies for responsible AI use within organizations

Lecturing is kept to the minimum necessary, and most of the learning is achieved by applying the practices and techniques in group exercises. Our LiveOnline delivery features an instructor who is 100% live, and interaction and learning objectives are the same as our in-person classes, with the added benefit of taking this course from your home or office. Since this class is delivered over half-days, it allows for greater flexibility and time for other work or activities.
