

AGILE TESTING

DURATION

In Person 2 days

LiveOnline 3 sessions of 4.5 hours

CERTIFICATION

ICAgile accredited course: The ICP- TST Certification from ICAgile is granted on the successful completion of this course. This certification is part of the ICAgile Agile Testing Track along with our Agile Fundamentals and Agile Test Automation courses. We offer the complete ICAgile Agile Testing Track for those looking to become an ICAgile Certified Expert in Agile Testing (ICA-AT).

PDUs

This course will contribute 14 PMI® professional development units (PDUs) towards your chosen certification (14 Ways of Working).

ARE YOU A TESTER WORKING ON AGILE PROJECTS? ADAPT AND ENHANCE YOUR EXISTING TESTING SKILLS AND LEARN TO WORK EFFECTIVELY AS A PROFESSIONAL TESTER ON AN AGILE TEAM.

Our Agile Testing course examines the application of testing in teams working on agile projects, covers testing practices used on agile projects, explains the theory and concepts behind an agile testing approach and prepares team members to succeed in an agile environment.

LEARNING OUTCOMES

During this course you will learn about:

- The background to testing in an agile project and the roles and responsibilities of a typical agile testing team.
- The definition of quality in an agile project.
- The various tools available to agile test teams to facilitate the testing of the project.
- The collaboration required for quality solutions.
- How discipline and standards contribute to agility.
- How to set up testing for success in an agile team.

AGILE TESTING

INTENDED FOR

- Test analysts
- Test engineers
- Test consultants
- Test managers
- User acceptance testers
- Software developers
- Project managers
- Managers of teams involved in agile development

PREREQUISITES

There are no prerequisites for this course unless you wish to take the ISTQB Foundation Level Extension - Agile Tester Certification exam. If you wish to sit the exam you will need to complete the ISTQB Foundation Certification in Software Testing, you can do this by taking our ISTQB Foundation in Software Testing course and successfully passing the foundation examination.

Inform

- Communicate
- Metrics
- Reporting

METHOD USED

Lecturing is kept to the minimum necessary, most of the learning is achieved by applying the practices and techniques in group exercises.

This program is offered as a classroom-based course as well as a LiveOnline program. Our LiveOnline delivery is over three days (each four and a half hours in duration). The instructor is live and interaction and learning objectives are the same as our in-person classes with the added benefit of being able to take this course from your home, your office or your home office. We use Zoom for our LiveOnline classes. Zoom is an easy to use and reliable cloud platform and we have in place robust security settings to ensure our users and their privacy are protected. For more information please check out our FAQ page.
