

DELIVERY AT SCALE

DURATION

In Person 2 days

LiveOnline 3 sessions of 4.5 hours

CERTIFICATION

ICAgile accredited course: The ICP-DAS Certification from ICAgile is granted on the successful completion of this course. This certification is part of the ICAgile Delivery Management Track along with our Agile Fundamentals and Agile Project Management courses.

PDUs

This course will contribute 14 PMI® professional development units (PDUs) towards your chosen certification (10 Ways of Working and 4 Business Acumen).

MANY TEAMS ARE SEEING THE BENEFITS OF APPLYING AN AGILE APPROACH TO THEIR WORK, INCLUDING INCREASED COLLABORATION AND ENGAGEMENT, MORE ADAPTABILITY, FASTER DELIVERY AND IMPROVED QUALITY. BUT HOW DO WE APPLY THOSE SAME PRACTICES AND PRINCIPLES ACROSS DIFFERENT PORTFOLIOS, PRODUCTS OR PROJECTS?

Our Delivery at Scale course will give you the tools and frameworks needed to apply agile to the broader context of product delivery so you can ensure that you're delivering working products or solutions while balancing competing demands across the organization.

This experiential course focusses on real-life examples and hands-on exercises to help you uncover various key concepts for implementing agile at scale. You will learn about adaptive planning techniques and a people-centric transformation approach that can help you achieve the best outcomes for your organization.

LEARNING OUTCOMES

During this program you will learn about:

- Visualizing the flow of value to optimize the entire system.
- Designing for organizational agility.
- Empowering the organization to deliver effective outcomes.
- Aligning value to implement delivery at scale.
- Sustaining continuous improvement.

DELIVERY AT SCALE

INTENDED FOR

Those responsible for ensuring effective delivery of working products to customers can benefit from this training, including:

- Delivery leads / Delivery Managers or people moving into these roles.
- Project or Program Manager or people moving into these roles.
- Transformation Lead, Agile Coaches or people moving into these roles.
- Portfolio Managers or people moving into these roles.
- Release Train Engineers.
- Business Architects.
- Enterprise Architects.
- Managers who want to grow their delivery management skills for the delivery of products in a wider organizational context.

PREREQUISITES

There is no formal pre-requisite to attend this course, however, if you are new to agile, we recommend to first follow our Agile Fundamentals course as a lead-in.

CONTENT

Topics and exercises covered in the course include:

- Defining, visualizing and optimizing the system – understanding the system in an organizational context, making sense of complexity, visualizing the flow and prioritization of work, and optimizing the system through identifying constraints and delays.
- Scaling agility – characteristics of scaling frameworks and scaling up vs tailoring down.
- Enabling change – organizing around value and culture change in an organization.
- Value delivery at scale – defining and measuring strategic objectives, alignment of work and big room planning.
- Measuring, learning and growing – agile metrics and characteristics of a learning organization.

METHOD USED

Lecturing is kept to the minimum necessary, most of the learning is achieved through applying the practices and techniques in group exercises.

This program is offered as a classroom-based course as well as a LiveOnline program. Our LiveOnline delivery is over three days (each four and a half hours in duration). The instructor is 100% live and interaction and learning objectives are the same as our in-person classes with the added benefit of being able to take this course from your home, your office or your home office. Since this class is delivered over half-days it allows for greater flexibility and leaves you with time each day for other work or activities.
